## Working Speedometer

### Working Speedometer!: Working Speedometer

	<b>Description:</b>	How To Make A Working Speedometer For Your GMod Car.
	<b>Original Author:</b>	<a href="#">GManInTheTub</a>
	<b>Created:</b>	8 February 2008
	<b>Notes:</b>	-

### How to make a Speedometer

1. Spawn a vehicle.
2. Spawn a Speedometer on the vehicle anywhere.
3. Spawn a wire screen on the floor and select these options:

Single value:on  
bigger font:on  
Floor Value:on  
Value A:MPH-KPH (depends where you are)

4. Now place the screen where ever you can see it on the vehicle.

### Wiring

Wire the A value from the screen to MPH or KPH (depends where you are) on the speedometer, make sure it's welded and drive off!
